

Documentation

Pages here should be assumed to pertain to the **latest release** (currently 2.0).
For documentation about 1.8, see the [eagle-i 1.8 space](#).
For documentation about **older releases**, see the [archive](#).

This documentation is a work in progress. We are grateful to the many people who have contributed to improving it. Please keep your comments coming.

System Overview: This document provides a high-level overview of the system. It describes the ontology-centric architecture, an institutional deployment and the eagle-i software stack including the repository, data tools, search and ontology/data model.
