net.shrine.authorization.CouldNotReachPmCell

Summary

The local I2B2 PM cell could not be reached.

Explanation

The most likely cause is that SHRINE is misconfigured, or that the PM cell is malfunctioning.

Resolution

If you are a user, supply all details of this error to your local site admin.

If you are a site admin, check shrine.conf, ensure that the URL for the PM cell is correct, ensure that i2b2 is responsive and reachable as configured.
