

net.shrine.hub.NoAdaptersRunQueriesProblem

Summary

No adapters are configured to receive queries.

Explanation

This error occurs when either no adapter nodes are known to the hub, or the adapter nodes that are known to the hub are not configured to receive queries.

Resolution

If you are a user or admin, contact the hub admin so they can resolve the hub's configuration. If you are a hub admin, verify that the desired adapter nodes are configured with `"sendQueries": true`.
