

SHRINE 3.0.0 Chapter 7 - Install SHRINE Software

Clean out the default tomcat services from Tomcat's webapps directory:

```
cd /opt/shrine/tomcat/webapps
rm -rf *
```

Retrieve the shrine-api.war file from the Harvard Catalyst Sonatype Nexus server at: <https://repo.open.med.harvard.edu/nexus/content/groups/public/net/shrine/>.

```
wget https://repo.open.catalyst.harvard.edu/nexus/content/groups/public/net/shrine/shrine-api-war/3.0.0/shrine-api-war-3.0.0.war -O shrine-api.war
```

Before installing check the md5sum of the downloaded components:

```
md5sum x86_64:
==> shrine-api.war <==
25449c5275670de45a83aa0d94d93292
```
